

# **Subcommittee Tracking Sheet**

## **POU TRM Measure Review / DEER Measure Documentation**

Meeting #1: April 2, 2015

### **I. Items for Discussion/Materials**

- Review subcommittee summary
- Review list of suggested POU TRM and DEER measures; select 8-10 measures from each group

### **II. Meeting Attendees**

Jenny Roecks, Cal TF staff  
Alejandra Mejia, Cal TF staff  
Annette Beitel, Cal TF staff

Armen Saiyan, TF Member  
Christopher Rogers, TF Member  
Spencer Lipp, TF Member  
Tom Eckhart, TF Member  
Travis Rhodes, SMUD  
Eli Caudill, Conservation Services Group

### **III. Discussion Issues to Track**

#### **General Comments**

- When full TF reviews subcommittee work, make sure that the full TF is aware of the subcommittee work/deliberations so that we don't "re-invent the wheel." (Tom)
- Look at some water savings measures (Armen)

POU TRM Measures – Group identified nine (9) POU TRM measures of interest:

1. Clothes washers
2. Appliance recycling
3. Commercial air conditioners
4. Commercial LEDs
5. Residential LEDs
6. Low flow showerheads
7. Faucet Aerators
8. VFDs on pumps and fans

## 9. EC motors for refrigeration

### Discussion:

- Travis/Armen would like appliance recycling
- Gas measures would be nice
- Consider a water savings measure
- LEDs for residential would be nice (Armen) has midstream program on hold.
- Travis would like LED tubes – LED tubes workpaper under review through regular Cal TF process
- Order of Measures – Go with High Impact Measures first (Armen)
- **ACT:** LADWP and SMUD will get Jenny list of “high impact” measures (deemed measures and/or custom measures that POU would like to convert to deemed that are highest contributors to portfolio savings.

### DEER Measures

- Include all overlapping measures (those that overlap with selected POU measures)
- Additional measures selected based on subcommittee feedback
- Measures selected:
  1. Clothes washers
  2. Appliance recycling
  3. Commercial air conditioners
  4. Commercial LEDs
  5. Low flow showerheads
  6. Faucet Aerators
  7. VFDs on pumps and fans
  8. EC motors for refrigeration
  9. Whole House Fans

### Draft DEER Documentation WP

- Jenny reviewed draft documentation of lighting WP
- WP will identify documentation that exists in DEER and also where information is missing

## IV. Action Items

- **ACT:** LADWP and SMUD will get Jenny list of “high impact” measures (deemed measures and/or custom measures that POU would like to convert to deemed that are highest contributors to portfolio savings.
- **ACT:** Jenny to propose measure prioritization of selected measures
