

Subcommittee Tracking Sheet

DEER Improvements / DEER Alternatives

Meeting #2: July 2nd, 2015

I. Agenda Items for Discussion/Materials

- Commission Guidance on DEER and Ex Ante Value Development presentation
- Ax Ante Vision high level framing document
 - Discuss: Does the document accurately capture the key goals of an ex ante framework for California?
 - Should the document reference our Commission language analysis?
- History and Current State of DEER/Ex Ante Framework presentation
 - Discuss: How does the status quo fail to meet the key goals of an ex ante framework?
 - Compare to earlier iterations
 - Structurally: Consolidated measure characterization vs. a disparate collection of workbooks with cryptic value codes.
 - Content?
 - Begin tracking divergence in implementation of Commission guidance
 - Discuss: Purpose, objectives, and current use of DEER

II. Meeting Attendees

Alejandra Mejia, Cal TF Staff

George Hernandez, TF Member
Srinivas Katipamula, TF Member
Christopher Rogers, TF Member
Tom Eckhart, TF Member

Alice Stover, MCE

III. Key Issues Discussed

- A robust process may still not yield the right answer for anything more complicated than a wattage reduction measure
 - Even using DOE's best forecasting tool (Building Performance Database) has an error of +/- 40%

- Small changes in building characteristics, settings, operation create big differences in results
- Ease of measure introduction is something to keep in mind throughout the process
- Subcommittee recommendations must help bridge any gaps in other processes that use DEER values

IV. Action Items

- ACT: Alejandra to clean up vision statement and post. Vision statement to be used in framing rest of subcommittee work.
