

# Measure Selection Subcommittee Report Out

**CALIFORNIA**  
TECHNICAL FORUM

**ALEJANDRA MEJIA**  
**MARCH 24, 2016**

# Background

2

- Pool of measures to be transitioned to eTRM created the need to prioritize out measure review work
- TF suggested in February that we use the stage gate process created in 2014
- Measure selection subcommittee met for two hours on March 10<sup>th</sup>
  - Presented prioritized list is still expected to be a “living document” as schedules and work loads shift

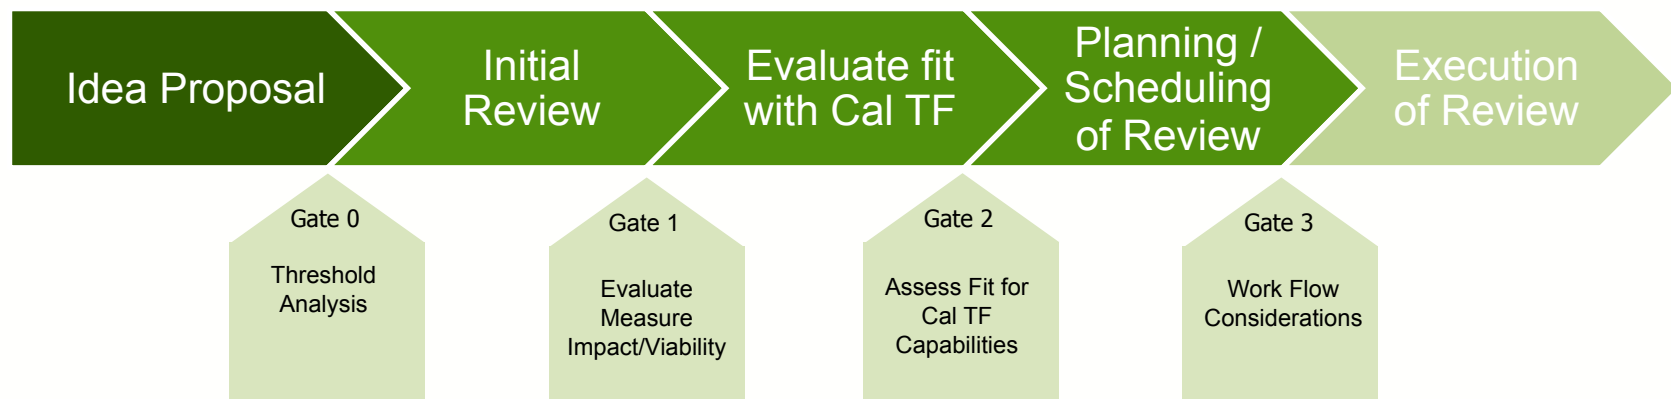

# Measures Available for Review

3

# Subcommittee Recommendations

5

- Focus on LEDs – Huge value in beginning discussion with Energy Division
  - POU TRM and select IOU efforts
    - ✦ Attempt to set precedent on how to combine and group measures
    - ✦ LED cost data will also be important
- Whole Home Fan
- ENERGY STAR UPS
- EC Windows?
