

Cal TF's Support of California's Broader Energy Policy Objectives

PAC MEETING
JUNE 12, 2014

ANNETTE BEITEL
ALEJANDRA MEJIA

Objective

2

- Review and Discuss Cal TF Alignment With:
 - Key Policy Documents
 - Energy Action Plan
 - CPUC Long Term Energy Efficiency Strategic Plan
 - CAISO Energy Efficiency and Demand Response Roadmap
 - Policy Maker Objectives
 - State Senate Committee on Energy, Utilities, and Communication documents and recordings
 - CPUC Energy Efficiency Rolling Portfolios OIR and Commissioner comments
 - New and Forthcoming Policy Initiatives
 - AB 32 Implementation
 - Prop 39 Implementation Efforts
 - EPA 111(d) Compliance

Overarching Policy Themes

3

- Collaboration
- Innovation
- Statewide Consistency

Overarching Policy Themes

4

- **Energy Action Plan**
 - “Meeting this goal requires the cooperation and teamwork of multiple sectors of the California economy,” (2008 Update, pg.2).
- **CPUC Long-Term Strategic Plan**
 - “California has taken this principle to heart and with three decades of leadership and innovation in the public and private sectors, California leads the nation, and perhaps the world, in developing and implementing successful energy efficiency efforts,” (pg.1).
- **CAISO Energy Efficiency and Demand Response Roadmap**
 - “Based upon input receive during the roadmap’s stakeholder process about the need for collaboration, the ISO, CPUC, and CEC are developing a cross-agency DR and EE workplan,” (pg.2).

State Senate Hearings

5

“Preliminary assessment of the state’s major energy incentive programs finds that the state currently lacks a comprehensive framework that fully coordinates these activities to help ensure that the state’s goals are being achieved.”

LAO Report

December 19, 2012

Presented to State Senate Committee of Energy, Utilities and Communication

State Senate Hearings

6

“Since the needs of grid operation are dramatically changing due to the rapid investments in clean energy, the joint agencies are coordinating to ensure future energy efficiency programs can help reduce the need for generation at critical times of the day and year.”

Letter to Senators Padilla and Fuller

February 25, 2013

CEC, CAISO, CPUC

Rolling Portfolio Proceeding

7

“I’m delighted to support this new rule making... I urge everybody, the utilities, energy efficiency stakeholders and advocacy groups to roll up their sleeves and get to work on this collaborative process,”

Commissioner Fioirio

November 14, 2013

Rolling Portfolio OIR Agenda Item

Rolling Portfolio Proceedings

8

“I believe that we should consider how California might adopt a Regional Technical Forum as used in the Northwest to help create greater collaboration and innovation in our market,”

Commissioner Ferron

November 14, 2013

Rolling Portfolio OIR Agenda Item

New and Forthcoming Initiatives

9

- AB 32 and Prop 39 implementation facilitated through statewide approaches to developing statewide consistent savings estimates.
- EPA's proposed rule for regulating emissions from existing plans released June 1st
 - EPA released proposed rule for regulating carbon emissions from power plants on June 1, 2014, pursuant to Section 111(d) of the CAA
 - Energy efficiency will very likely be accepted method for achieving compliance
 - Cal TF may foster compliance using efficiency if it leads to statewide system of ex ante values for energy efficiency

Conclusion

10

- Cal TF clearly supports and will help achieve state goals for energy efficiency.
- Furthermore, Cal TF will facilitate implementation of new federal and state clean energy initiatives, including:
 - AB 32 and Prop 39 implementation
 - Section 111(d) of the Clean Air Act
